

# NC Wine and Grape Council (NCWGC)

## Research and Development proposal submission guidelines

### Fiscal Year 2024

#### EXPLANATION OF THE GRANT

The competitive grant application process is open to anyone choosing to apply – researchers, commercial grape growers, grape growing organizations, wineries, and any other interested individual or entity in NC interested in doing marketing, education, business enhancement, or viticulture/enology industry research to further improve the growth and development of the NC grape and wine industry. Please refer to the attached Platforms and Priorities to understand what the Council is most interested in investing in this year.

#### PROPOSAL SUBMISSION DEADLINES

- Proposal submission (no later than) October 1, 2023
- Proposal presentation to NCWGC may be required – date TBD
- Mid-year reports due (no later than) June 1, 2024
- Final reports due: (no later than) January 1, 2025

#### PROPOSAL REQUIREMENTS

Please adhere to the following requirements. All points are required for the proposal to be considered. Any proposal not containing the required elements will not advance in the consideration process.

[A short summary of the proposed project](#)

[List Researchers](#)

- Names
- Addresses
- Qualifications

[Completed Business Information Form](#) (page 5 of this document)

[Background Info](#)

- Explain the significance of the project

[Project objectives must be clear, well-structured & measurable. Provide a concise list of objectives and methods that you will use.](#)

- What steps have you taken to determine the project you are planning has not already been done, involved in another ongoing project elsewhere that could be a potential benefit for the NC grape and wine industry?
- What literature have you researched? What other researchers have you consulted? What did you discover?
- How will you or have you involved grape growers or other users of the results in the choice of the problem and in the planning and execution of the project?

## OUTCOMES

- Projects that have impacts and outcomes that can be identified, measured, and disseminated are encouraged.
- What is your plan for delivering the information from the project to the growers, wineries, or other appropriate users? There must be a plan for the dissemination of information for your proposal to be considered.

## TIMELINE

- List the start and end dates of your project.
- List all dates for reporting and final report submission.

## BUDGET

- How much money do you need and how will it be spent?
- What other sources of support do you have?
- Research grants can only be used for expenses directly related to original research. General overhead and operational costs may not be included in your budget proposal.

### Grant funds can be used for...

- Priority items listed in accordance with the official NCWGC's platforms and priorities
- Material expenses (tools/supplies)
- Travel for testing/research
- Meeting fees
- Lab work
- Part-time labor necessary for project execution
- Reimburse direct project costs such as expenses for recording, analyzing, documenting, and disseminating results, rental of equipment necessary to the project

### Grant funds cannot be used for...

- Creation of a permanent faculty or staff position
- Operating/overhead/indirect expenses (more than 10% of the project budget)
- Land purchases
- Permanent equipment/land
- Expenses that primarily benefit the farm or vineyard where research is being done
- General equipment such as tractors, mechanical harvesters, vehicles
- Travel to professional meetings outside the scope of the ongoing NCWGC-funded project

**\*All expenses must be directly related to the project.**

## REVIEW PROCESS

- All proposals received by the submission deadline will be reviewed initially by the NCWGC research & development committee. Each proposal will be reviewed for content and completion of all required aspects.
- The committee will make recommendations to the NCWGC board members on each proposal.

- After each proposal has been initially reviewed and verified for all requirements, a brief presentation by the requestors to the NCWGC board members will be held during a general meeting of the NCWGC board. Brief question and answer periods will follow each presentation (10-minute presentation with 10 minutes for questions).
- The NCWGC board members will review together all proposals and vote on each proposal.
- This process will be completed within one-two months from the final submission date.

## WHAT HAPPENS IF YOUR PROPOSAL IS SELECTED?

- Researchers will receive written notice of NCWGC project approval.
- Researchers will receive an offer letter from NCDA with a contract for the proposed project.
- Researcher or institution will complete and sign the contract (two copies) and return it to NCDA for execution.
- One copy of the executed contract will be held by NCDA, and one copy will be returned to the researcher marking the official beginning of the contract period.
- Upon receiving the executed contract

## REPORTING DEADLINES

June 1, 2024	Mandatory written status report due to NCWGC for mid-project review
January 1, 2025	Final report due

**\*If any researcher does not submit the required reports to the NCWGC by the specified deadlines, that researcher will be ineligible for future project funding by the NCWGA for two fiscal year cycles.**

## BUSINESS INFORMATION FORM

**\*This page must be completed and inserted into the proposal as "Attachment A" for the project to be awarded.**
